FULL DETAILS

This morning, you are picked up from your hotel in Stockholm and transported out of the city to the charming seaside village of Dalarö where you board the car ferry the short distance to the archipelago island of Ornö. When you arrive, you will be driven directly to the small marina where your sailing boat will be waiting. Ornö is the largest island in the southern archipelago totaling 14km in length and 6km at its widest part. Ornö has traditionally been less exploited for tourism than some of its neighbouring islands and remains today an island with a living community.

Once out on the sea, you will have the chance to enjoy some of the 24,000 glorious islands in Stockholm's endless archipelago. Stretching some 80km east of Stockholm deep into the Baltic waters, it formed during the last Ice Age and is today considered to be one of the world's natural wonders. There are many islands located close by Ornö which can be visited during a day's sailing. One of the more visited islands is the holiday island of Utö, visited by Stockholmers for its Nature Reserve, exceptional beaches and history. Alternatively, there is Fjärdlång island which despite being on the edge of bustling Stockholm, could not be more remote and the whole island has been deservedly declared a nature reserve. Huvudskär is another closely lying group of some 200 islands and skerries which have also been recognised for their beauty and declared a nature reserve. They are also known for their rich birdlife which fill the seas and skies with sound and movement. Many other islands lie within a day's sailing of Ornö, and your route will be planned dependent on wind and sea conditions, but whichever direction you head, you will not be disappointed.
